This is a publication rarely encountered. This is the only one I ever saw for sale.

Nagy seems to be an enigmatic figure. From around 1907-1911 or so he was associated with John Haseltine, selling rarities from the Soller estate. Although supposed to be related by marriage to Haseltine, no mention of him is made in Haseltine's Obit in the 1925 Numismatist. Nagy dropped out of the ANA and was just a small time dealer in Philadelphia for many years thru the 1950's. His Obit is noted with just a few lines in the March 1959 Numismatist.
